

Hello Every One, This Is Qr Code Application Documentation.  
Please Follow The Instruction Before Using The Application.

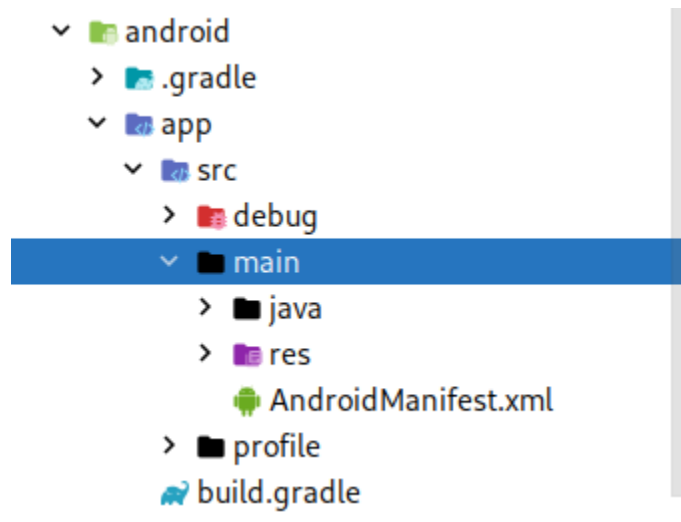

### 1- Edit Application Setting:

Open The File Settings.dart Located in The File lib:

```
1
2  import 'package:flutter/material.dart';
3
4  class Settings{
5
6
7    static var colors = {
8      "primaryColor" : Color(0xFF0098D9),
9      "textColor" : Colors.grey
10   };
11
12   static String AdmobAppId = "ca-app-pub-6497644252474649~4848946312";
13   static String AdmobBannerId = "ca-app-pub-6497644252474649/5267701292";
14   static String AdmobInterstitialId = "ca-app-pub-6497644252474649/1053603048";
15 }
```

- You can Change The primary Color And The Text color
- And Please Change The AdmobAppId With Your Admob AppId, AdmobBannerId with your banner id and AdmobInterstitialId with Interstitial id.

### 2- open AndroidManifest.xml Located in Folder main

Change `android:value` with your Admob App id

```
<meta-data
    android:name="com.google.android.gms.ads.APPLICATION_ID"
    android:value="ca-app-pub-6497644252474649~4848946312"/>
```

Change `android:label` with your Application name

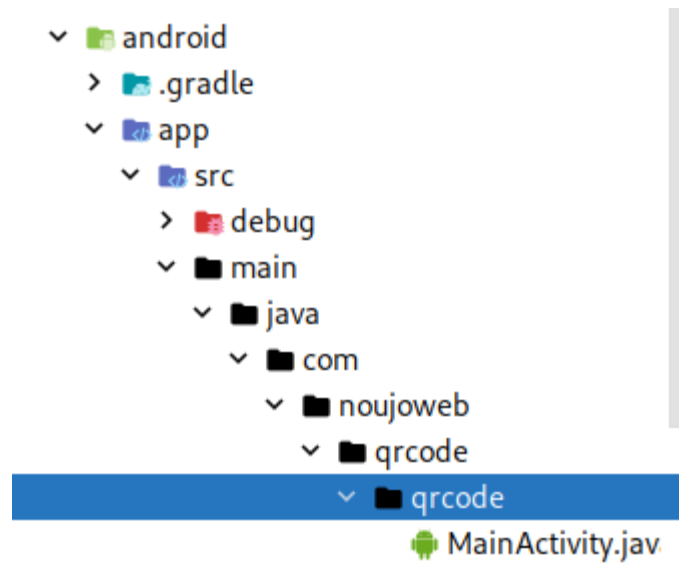

```
<application
    android:name="io.flutter.app.FlutterApplication"
    android:label="qr code"
    android:icon="@mipmap/launcher_icon">
```

Now Change The Package Name.

```
<manifest xmlns:android="http://schemas.android.com/apk/res/android"
    package="com.noujoweb.qr code.qr code">
```

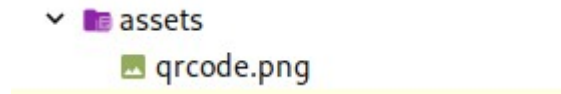

And Please Opent profile and debug folders you file find other AndroidManifest.xml files, Edit the package name in them.

Finale Open MainActivity.java

edit the package name in it as well.

3- if you want to change the logo and the image in splash screen,  
please rename your logo picture with `qrcode.png`, and copy it to assets  
folder

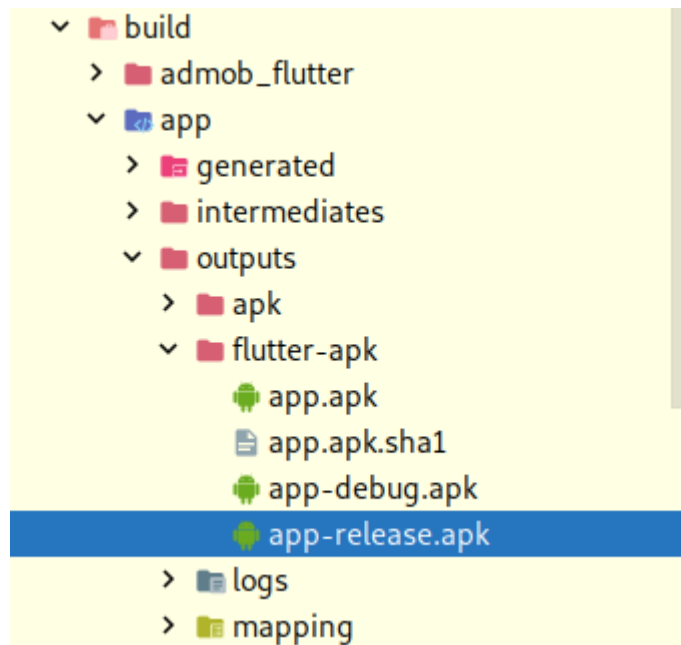

4- The last Step is create your apk file  
(before doing this step you need to install dart and flutter in your  
computer,  
you can follow this link to see how: <https://www.youtube.com/watch?v=FA87HkVvXyM>)

open cmd in the application directory and run this instruction:

```
flutter build apk
```

```
[Achraf@achraf qrcode]$ flutter build apk
```

after complete you will get this result:

find it in: build/app/outputs/flutter-apk/app-release.apk

share it and enjoy with admob earnings.

If you want to upload the application to play store:

please follow this video: [https://www.youtube.com/watch?v=i\\_oIq8ImC1s](https://www.youtube.com/watch?v=i_oIq8ImC1s)
